## GOING AWAY

On a combined pleasure and business trip Aug. 8th to be gone a month. Those who have been contemplating having their eyes examined, or their lenses changed, should make it a point to come in early this month and have it attended to. It's pretty hot, but we have a fan to help keep cool.

## Frigid Soda

Once in a while some one finds our soda too cold. It is as cold as a lavish use of ice will make it and that's the way most people want it. It is always cold and sparkling. It almost makes your mouth water to hear it come from the fountain. It draws with a vim. Our specialty is the famous Root Beer. Try it and you will wonder why others don't make the same kind.

To Our Good Friends,  
City

We are at present quitting the retail trade in this city in order to devote more time and energy to our wholesale and shipping business. Please accept our thanks for the liberal patronage you have given us. We assure you we are not quitting because we do not appreciate your favors and the kindly encouragement you have given our efforts to supply the trade of the city with pure, wholesome milk and cream. It has been a pleasure to serve you. Again thanking you, we remain, Very truly yours,

PREPARATORY COURSE—Mr. and Mrs. E. M. Dickerman of Tucson arrived here yesterday morning and went on to the north on the evening train. They spent the day taking a preparatory course of Phoenix climate so they would know how to enjoy the cool breezes of the Grand Canyon when they get there. Phoenix wasn't hot enough for them or they would have stayed longer, but they played along to Prescott where they can graduate on the warmth of the Fourth of July celebration. They promise to return again after the first snow storm.

AN EASTERN TRIP—Dr. J. W. Foss and wife will leave today for Boston where Mrs. Foss will visit her sister during the summer. Before going to Boston, however, they will see some of the east and northeast, visiting Niagara Falls, New York, cruising up along the coast to the rocky fjords of Maine. Dr. Foss will return as soon as possible, probably in less than a month, leaving Mrs. Foss until the heated term is over in Phoenix. He says that letters from relatives in Boston bring the news that the inhabitants of the city famous for beans are at present sweltering in heat and humidity. Dr. Foss expects to run amuck of this hot wave before he gets back to the dry climate land of outdoor sleeping. He will not forget to do a little boosting for the valley on his journey and catch all the new ideas in sight of value to his profession, and anything along the line of advertising that may be of use to the board of trade in booming the land of little rain.

A RUNAWAY—A frightened team hitched to a road wagon, with the heavy stone hitching weight still dragging on the bits, tore down Washington street yesterday, turned north on Center and nearly knocked down one of the Consolidated Transfer Co.'s dray horses, smashed into a telephone pole, overturning the wagon, and none discouraged kept up their flight northward. It could not be learned to whom the fine blacks belonged, but the way they ran was amazing. The speed at which the team ran kept the stone block, which must have weighed not less than a hundred pounds, bounding through the air, hitting only the high places, till finally the hitching rope was broken near the Occidental rooming house. There was no one in the rig and no damage was done except to the wagon.

THE BURGLARY OF A STORE—The O. K. store, on South Seventh avenue, Mr. Pennington proprietor, was burglarized on Monday night and a quantity of dry goods was carried off. A pair of overalls found in the alley in the rear of a Chinese store farther down the avenue turned suspicion in that direction and the proprietor Lang Quong He, was taken into custody. He is not charged with the commission of the burglary or of being a party to it, but he is suspected of having bought the goods from the burglar. Several pairs of overalls like those stolen from the O. K. store were found in the stock of the Chinaman as well as a bolt of calico similar to a bolt that had been taken from Mr. Pennington's. The Chinaman said that he had bought the calico and the overalls from the New York store and
